SPECIAL OPERATING AGENCY

ORGANIZATION AND STAFF DEVELOPMENT (OSD)

BACKGROUND

Programs and policies supporting government-wide (corporate) development and the management of civil servants originate under the provisions from The Civil Service Act and from government direction. These programs and policies are implemented under the mandate of the Civil Service Commission.

Since 1970, OSD has assisted the Commission, government departments and outside organizations with the implementation of effective human resource practices.

PURPOSE

OSD provides consulting and training services to support the implementation of government-wide human resource policies and priorities.

The agency assists employees and their managers to solve organization problems, to improve service effectiveness and to help realize the human potential that exists within organizations.

COMMITMENT

OSD believes that its consulting and training services contribute positively to improving individual and organization effectiveness in the Manitoba Government and in those other organizations who access our services.

OSD is committed to representing three principles in whatever the agency does.

1. The needs of those who use our service are our concern.

   This means we act with the courage necessary to understand our clients and to provide them with real help for real problems.

2. We treat others as friends, no differently than we treat ourselves.

   This means we strive to make every contact an experience that benefits our clients, makes them better off for knowing us and leaves them a little wiser.

3. Our work is important work.

   This means that we serve to the best of our ability. We respect the privilege of helping Manitobans and those who represent them.

OBJECTIVES

The goal for 2006/2007 is to continue to solidify the agency position as a significant supplier of consulting and training services.

Objectives for 2006/2007 are:

1. To complete and present a proposal to the Deputy Minister Advisory Committee for developing and delivering a corporate Orientation to Government program for new hires to government.

2. To submit the total renovation costs and requirements for establishing a dedicated training space for OSD and include the cost savings to government.

3. To develop and deliver a comprehensive training program for supervisors in support of the Civil Service Leadership @ all levels program.

4. To enhance service delivery of OSD programs and services through multi-media approaches such as electronic needs assessments, e-learning, video teleconferencing and web-conferencing.

5. To build an internal capacity in the civil service community to assist with the development and delivery to training related to corporate policies and initiatives and human resource management skill building for leaders.

6. To continue to develop further partnerships with post-secondary institutions within the province for accreditation for OSD workshops and communicate recognized service to the general civil service.

PERFORMANCE MEASURES

The OSD performance framework reflects three influences:

1. The service principles of the Organization for Economic Cooperation and Development (OECD) model of responsive government (principles consistent with the commitment of the agency).

2. Relevant criteria from the attributes recommended by the Canadian Comprehensive Audit Foundation (CCAF).

3. Recommendations from the OSD 1997 Effectiveness Evaluation.

Assumptions and Notes to Financial Statements

1. The financial projections are prepared in accordance with generally accepted accounting principles. These future-oriented financial statements reflect planned course of action for the period covered and were prepared using assumptions which reflect management's judgement of the most probable set of economic conditions. The actual results achieved may vary significantly from the future-oriented information presented in these statements.

2. Funds not required for day to day activities are placed on deposit with the Department of Finance. These funds are invested in 30, 60 and 90-day notes.

3. Employees, upon retirement, are entitled to one week of salary for each year of service up to a maximum of 23 weeks of pay. The retiree must have nine or more years of service to be eligible for this severance. The projections include a provision for future severance costs. Accounts receivable includes an amount from the Province of Manitoba equal to OSD severance liability at March 31, 1998.

4. As at March 31, 2001, the Province assumed responsibility for administering the SOA's pension liabilities. With the change in policy, matching pension contributions are made bi-weekly and are included as an in-year expense in the income statement.

5. Computers are amortized on a straight-line basis over five years. Furniture amortized on a declining balance basis at a 20% rate. There are no capital expenditures budgeted for future years.

6. The Salaries and Benefits projections include merit increments of 18.17% for 2006/2007.

7. Revenues are estimated to grow by 2.7% annually. All variable costs are set as a fixed percent of revenues based upon past experience.
